There will be reductions, under revision process, which may cut off 25,000 to

One of the first probable results of this tremendous increase in the number of voters will be a redistricting of the city and the addition of many more precincts. That will add largely to the aiready heavy cost of primaries and elections. Chief Clerk Egan, when he heard the size of the registration, said the election

commissioners would have to redistrict the city. That will not be done, however, until after the April election. Here Are the Figures by Wards. Following is the total registration after

to changed addresses, are eliminated. Women 55 Per Cent. increase their voting strength, but the proportion of the women to men was not so large as was expected by the politicians. Predictions were that two-thirds of the registration would be by the new voters. The figures show a fraction over 53 per cent. The women were more ac-

tive in the residence wards. Politically it looks as if the registration was about a standoff. For the Democrats the First, Third, Eighth, Thirteenth. Fourteenth, Eighteenth, Twentyfirst, Thirty-fourth, and Thirty-fifth wards came in strong with 20 per cent or better. For the Republicans the same result was accomplished in the Second, Sixth, Seventh, Ninth, Twenty-fifth, Thirty-second, and Thirty-third wards. Several wards which are counted on for fair Democratic pluralities fell below the average in their registration.

largest engine of naval warfare in the world slid down the ways while a prayer was uttered that she might be a messenger of peace rather than a weapon of destruction.

Christened by Miss Elizabeth Kolb of Germantown, Pa., as Secretary Daniels gave a signal, the monster hull slid into the James river and the swell tossed the German converted cruiser Prinz Eitel Friedrich less than a hundred yards away.

Commander Thierichens, commander of the sea raider, sat in full uniform with the official party on the platform and mingled with American naval officers throughout the ceremony.

At exactly 10:11 o'clock the German naval officer joined 10,000 Americans cheering the new American dreadnaught on its slide into the sea. after Episcopal Bishop Berry of Pennsylvania had read a prayer for the welfare of the president and people of the United States, the army and navy, and the peace of the world.

A luncheon followed at Old Point Comfort, at which Secretary Daniels in a speech declared that sever before in its history was the United States navy in better shape to fight.

"There never was a time," the when the navy was so powerful, so ready, so efficient as now. Nor has there been a year when the fleet has given so much time to target practice, maneuvers, war games and practices as the pres-

"Skill, modern adaptation, new tactics are being carried out day and night. The motto of the navy ships and men fit. Today they are fit and ready."

Secretary Daniels praised congress for providing recently for an increase in the navy, saying it showed its wisdom o the value of submarines when it authorized a big increase of the craft.

"No nation," he said, "has placed such substantial faith in the deadly power of this undersea craft. Within a comparatively short time, when our mighty fleet lies in Hampton Roads, ready to traverse the ocean, it will be accompanied by submarines which can make twenty knots and send hurtling through the water torpedoes capable of sinking the leviathan ships any nation can con-

In weight of metal thrown at one broadside only the Fu-So, building for the Japanese navy, will equal it. The Queen Elizabeth of the British navy is the only battleship carrying heavier guns, those of the British boat being fifteen inch while those of the Pennsylvania are fourteen inch While the former is hurling eight of its monster shells at the enemy the latter will be sending twelve to the broadside, only one inch less in diameter.

Theoretically the fifteen inch guns should carry further than the fourteen inch, but in a battle at effective range, with equal accuracy of gunnery the heavier broadside will decide the issue, experts

A SENATOR BARRED OUT.

Two men elected in November to the state senate which began its sessions in the first week of January have not been given their seats by the middle of March. In the case of one of these men, Senator Austin of Oak Park, the recount ordered by the senate has been finished, his title to the seat is established, and nevertheless it is said that he may not be recognized as a member of the senate until some time in April.

The pretext for this further delay, it is said, will be that the subcommittee in charge of the recount in the Englewood district is still hearing evidence with regard to ballots in dispute, and that, in the time wasting methods adopted, it will be two weeks before the result is determined. Therefore, unless separate reports be made to the senate, a man already unjustly deprived of his seat for over two months will suffer from further need-

most of the limits which ordinarily restrict political action. Further delay will make it even more notorious than it already is.

THE ACTORS' BENEFIT.

The actors' benefit performance Friday after noon at the Auditorium will contribute to the fund devoted to the care of people in this professio who fall into needy and distressful circumstances. It is reasonably urged in behalf of it that the actors contribute themselves to programs which have the needs of other persons, victims of calamity and sudden distress, in design, and that, furthermore, considering the place they fill in the amuse ments of the public, the public may well consider the necessities of such of them as require assistance as they get along in life and out of service.

About \$60,000 a year is spent in protecting actors and actresses from the consequences of poverty, and the public which enjoys their efforts while they are self-supporting is asked, not to contribute to a charity, but merely to choose as a place of entertainment the Auditorium Friday afternoon, when indigent players will receive the benefit of money paid in at the box office.

FOR CONSERVING YOUTH.

A piece of constructive social legislation which it is hoped will not fail in the present assembly is the altogether sure of its intentions; but whatever its bill introduced by Representative Shurtleff on behalf of the Consumers' League of Illinois.

This is a measure limiting the employment and hours of labor of youth as described in Miss Edith Wyatt's communication to THE TRIBUNE of yesterday. The main purpose of the bill is to meet the evils arising from the fact that there are thousands of children between the ages of 14 and 16 who are neither at school nor at work, being too old to be tary of state, and H. Miss Wyatt points out that Illinots is the largest state in the union which permits night work to women, while it is prohibited in the chief countries of Europe, save Russia.

If the assembly passes this law substantially as atroduced it will be expressing the conscience and the social intelligence of Illinois, which has at times taken the lead in social legislation and should be brought up to the first rank.

NEW ORDERS IN COUNCIL.

Great Britain and her allies are putting a severe under section 467% of the postal laws strain upon neutrality by asserting that their necesand regulations, being the average from April 1, sities override our rights and not only our rights 1914, to Sept. 30, 1914: cious, but the British must realize that they are provoking reta etion in kind.

There has been protest against the sale of munitions of war to such beiligerents as could get them. Such belligerents are the allies against the Germanic nations. In spite of pressure, both political and sentimental, our government has preserved but on which money so paid has been what it knew to be its duty as a neutral, but if its rights as a nentral are to be disregarded its duties may be modified.

The British measures of reprisal, as they are called by the British government, affect us in several ways. If they involved nothing but, an interference commercially they would be sufficiently serious, but when that interference has no other authority than the British determination, and when it not only imposes upon good will but offends national dignity and puts us in an equivocal position with regard to Germany, the situation is made more difficult,

Germany may expect us to uphold our own rights in a matter which affects her so consider ably as this. If under certain conditions here fore governing we have the right to ship her goods and she the right to receive them, it might be argued that there is a duty resting upon us to maintain that right and that submission to interference is an unfriendly act

It is known that the American government will confine itself to diplomacy. Whatever action it it will not be astonishing if sentiment turns in the direction of imposing some penalties upon the trade of Great Britain and her allies with this country.

ART AWARDS AND ART.

Hostilities opened in the local world of artists by the protests of a number of painters against the awards of the Municipal Art league ought to be welcomed by every one who wishes to see the arts Sourish and Chicago something better than the biggest town in America. The vision of Mr. Lawton Parker at the head of his rebels storming the Art institute over the prostrate forms of President Hutchinson and the trustees is not necessarily one which should horrify the discerning city patriot. On the contrary, until we can care enough for an art to make war for it, if our pacifist friends will pardon the military metaphor, it will derive very little sustenance from prize awards, although the favored artists and their worthy families may.

In fact, if the point raised by the protestants vere not in itself worth making, the revolt, any revolt, would be justified by the condition which eems to be revealed in the statement that "the officials of the Art institute are worried by the strife because they fear the Art league might put an end to its award of prizes to Chicago artists and prevent the presentation of paintings to the institute."

This obviously is peace at a price which should not be paid and begs the question involved. If prizes are given to stimulate artistic activity, and if that is the effect of awards, it would seem to follow that the reward of merit is necessary to the encouragement of merit. It would also seem to follow that the

TO WIPE OUT "DOPE" HABIT. RUG habits are more or less inter-changeable. When a person has one drug habit he is prone to pick up another. It is the rule that a person with one drug habit is addicted to the use of more than one drug. A flend will drop one habit and pick up another. In order that no misunderstanding may arise, I should say that physiologists regard coffee, tea, tobacco, and whisky as drugs in the same sense that opium and cocaine are. From coffee at one end of the line to cocaine at the other, no pot has the right to call the kettle

The craving for tea and that for whisky, the hunger for a cigaret and that for a dose of morphine are of the same kind. Each comes of an inborn willingness to cheat in playing the game of life. As a result, let us say, of a period of overwork, a person is nervous. If he is perfectly poised, he will hold himself in hand by exercise of will power until he can recuperate through rest. If he is not thoroughly balanced, he will soothe his nerves by smoking a cigaret or drinking a cup of coffee. One cigaret leads to an-Presently comes the time when a cigaret fails to give the kick.

The death the other day of his father, Sir Henry Miles, popularly known in the west of England as "Red Bob," on acserves to recall the odd circumstances cted with his accession to the title. His predecessor in the baronetcy and in ownership of the estates was his nephew, Sir Cecil Miles, who married in 806 a Miss Minnie Spire of Innsworth Gloucestershire. The match did not meet with the approval of his relatives.

Sir Cecil, who was a well known yachtsman and a frequent visitor to the United States and Canada, died suddenly, after three years of marriage, without issue, and his uncle, Henry Miles, in consequence thereof, assumed the title of bar onet, as next male heir, and prepared to take possession of Leigh Court and of the arge estates in Somersetshire.

In fact, he had already given up the esidence which he had occupied until then at Bristol, and had forwarded his beongings and those of his wife and children to Leigh Court when he received the news that the young widow of Sir Cecil had expectations of becoming the mother

The result of this was that Henry Miles was compelled to abandon the prefix of Sir" to his name, his wife reverting from the title of "Lady" to that of "Mrs." and that he was forced to have his household goods shipped back from Leigh Court to Bristol, which fortunately B. THAT TROUBLESOME HYPHEN. Gospen, Ind., March 11.—[Editor of The Tribune.]—This hyphenating of "German" and "American" has provoked much needless trouble, all because of an orthographical confusion. The German citizens of this country, when wishing to indicate their German birth, origin, or speech; simply make an orthograph mistake by connecting the adjective

with 'the noun "American through a hyphen. Hence Americans have come to believe that those Germans mean to say they were German citizens as well as Amerisimply want to indicate that they are German speaking Americans or of Ger man extraction, although probably mostly using the English language. Consequently it is false to call any one a "German-American." The words must be written without a hyphen-namely: "German American." But when "German American" is taken as a double adjective, as, for instance, a "German-American citizen" or "German-Americas league," etc., it is perfectly logical, and there can be no reasonable objection

thereto. The confusion came by translating the German appellation of a German American (Deutsch-Amerikaner) into English and retaining the hyphen. It is correctly used in the German language but not so in speaking American citizen or one of Gercan," but when using the latter words as a double adjective write it "German-American." This should clear away all misunderstandings and objections with those who are capable of understanding the rules of language. Those who are ignorant herein will, of course, still object against any hyphen. A. C. Baus.

JEAN SCUDDER Is Miss Marjorie Jean Scudder of Evanston to marry James P. Heth Jr., lives just around the corner?

Father Scudder, who is president of the Scudder Sirup company and lives at 1814 Judson avenue, said he knows nothing of the proposed match. James P. Heth, father of the man in the case, simply looked surprised. It was reported in Evanston in the afternoon that a marriage license had been issued to James P. Heth Jr. and Miss Marjorie Jean Scudder, both of Evanston. Miss Scudder was promptly asked about it.

"Nothing of the kind!" she said. Then she pondered a moment.
"Well, I might as well tell you. We thought we could get a license and so ahead without any one's being the wiser. We simply didn't want to announce an engagement. Now that it's out we won't do it at all," she replied. Heth, it is said, is now an employe of Miss Scudder's father. The

THE VALLEY OF FEAR By A. Conan Doyle A New Sherlock Holmes Story

Sherlock Holmes is back in the Baker street rooms and at his best. It is ten years since we have had a Sherlock Holmes story and the hero seems to have gained in vigor and subtlety and fascination during the time. Watson, too, is better than ever. . . The latter part of the story is set in America."—Hidegarde Hawthorne, in New York Times.

Kick a cripple and get a laugh

Any guy who can kick a cripple out of bed in a hospital and create spasms of mirth, is some comedian. That's real humor. Any 2x4 comedian can be funny when funny lines are tossed to him, but to make you laugh like the devil at a cripple (in a hospital) say, that's being suttle. And suttle humor is Billy Ritchie's specialarity.

He is a Universal comedian and he drags down a big salary for being a darn fool. His face is like the preliminary work on a clay statuette, and the instant it is flashed on the screen, there's a scream of laughter. Get acquainted with Bill. Ten minutes with him is a smic.

Incidentally don't forget that E. Phillips Oppenheim wrote "The Black Box"

the Universal's great serial now under way, and that we filled his waste basket with money when we asked him to do the job. Don't you let your favorite theatre overlook this weird yarn of Oppenheim's. And you theatre, owners, if you want to increase your popularity, book this serial before you're an hour older. And remember that the UNIVERSAL is calling on the world's most famous people to write its stories. Take the SANTA FE direct to Los Angeles. Universal City is only a few minutes from there. 50 Mahogany Tea-Wagons in a Special March Sale at \$17.50

They were made according to our own specifications for this special event.

The manufacturers we selected do not know how to make anything cheap. Their craftsmen are skilled in the art of furniture-making and never sacrifice quality under any pressure.

So these tea-wagons are of the very highest type-with symmetry and grace in every line.

They have removable glass lined tray with rounded corners, measuring 231/2x171/2 inches, and fitting snugly over the top.

The lower shelf has a saucer edge. The wheels are made in the artillery style and the legs are tipped with fine casters having a brass shoulder, thus permitting the easy gliding of the wagons without raising them from the floor.

The most remarkable feature is the pricing of beautifully constructed tea-wagons. \$17.50.

Cubs-Phillies Score.

Tampa. Fla., March 16.—[Special.]— The Cubs won a wretchedly played ball game from the Phillies today by an actual count of 10 to 4, although if it came to an official decision the net score probably would have been 9 to 4. The differential is due to the fact the game was called or ccount of darkness in the Cubs' half of the eighth before anybody was out.

It was colder than the traditional in-auguration day in Chicago and that may the exhibition given by both sides. The chill and the bum ball playing were responsible for the fact almost all the spe tators went home before dark.

Cubs "Blow" in Two Bounds. The Cubs confined their poor work to two innings, the sixth and seventh. The

advantage of the poor condition of two of the three pitchers Manager Moran used. Eppa Zeptha Rixey, the human string, blew up in the second round and was hammered for five hits, which, with the help of a base on balls, made four tailies. Moran switched to Baumgartner right away. The former Maroon star performed well and held the Cubs down to three hits one run in the next four innings. That run was the net result of a pair of long hits by Williams and McLarry.

Smith and Kavanaugh staged a head on These gave the Cubs one run and filled collision in short left field in the fourth inning of a practice match between the regulars and the Brownies at the afternoon session.

The score at the time was 4 to 3 in favor of the regulars and a Brownle was on third base, with only one out. Ad Brenman boosted a short fly to left. Kav-anaugh came in for it and Smith and Zeider went back after it.

Zeider Watches Collision. Zeider, being an old hand at the game, dropped out of the competition when he saw so many trying to make the catch, and every one yelled for Kavanaugh to take the ball, as he would be in position to peg to the plate and cut off the man who was on third. Young Smith paid no attention to the yells of his mates, and

Judge Baldwin May Give Decision Today, Unless Belligerents Agree.

BY HANDY ANDY.

n the suit against the Federal league by ts Kansas City club was made yesterday vithout result, and the outlook is that udge Baldwin will be forced to hand down a decision in the dispute this morn-

Representatives of both sides appeared n court yesterday afternoon, the league officials bringing in the copies of their franchise agreement with the Kansas City club and other documents requested by Judge Baldwin. Then the court gath red the contending forces in his chamber and left them to argue over a possible eaceful solution of the difficulty.

Judge May Decide Issue. For the league Attorneys Addington,

Meyer and Gates and President Gilmore were present. Attorneys Zane and Eldridge of Chicago and Mesars, Haff and Gordon of Kansas City handled the club's end of the matter. Neither side would state what took place during the conference, but both indicated the judge would have to decide the controversy.

"We will not agree to any settlement City," said Attorney Eldridge, spearing habitants. vors us there will be plenty of money to finance the team." "There will be no ap-"There will be no appeal from Judge Baldwin's decision by the league," said Gilmore. "What action we may take if the decision is against us I am not able to predict. But Newark will have a club; that is certain. Gilmore Awaits Decision.

Asked regarding current rumors that either the Indianapolis or St. Louis team would be sent to Newark if Kansas City is upheld, Gilmore declared he never rossed a bridge before reaching it. Following another secret meeting in Veeghman's offices, most of the visiting Federal league presidents started for their various homes last night.

A. A. LEADERS MAY AGREE ON SCHEDULE HERE TODAY President O. H. Wathen of the Louis-

ille club and President A. F. Timme of Milwaukee met in Chicago yesterday to discuss the row in the American association over the reduction of the schedul from the usual 168 games to 154.

Tacoma Promoters Yell?
It was charged in the various stories circulated that Kennerdell in order to pacify promoters of a race meet at Tacoma on July 4, had forced the midwastthe purses announced as \$25,000 to \$15,000, thereby giving Tacoma, which aiready had agreed on a \$15,000 purse, an equal chance to get entries.

According to advices received from Omaha yesterday the managements of the Sloux City track and the Omaha tracks got together and agreed on a \$15,000 purse, claiming it was better for all concerned to give a more moderate prize. It was said further that Mr. Kenerdell was not consulted in the matter and did not know of it until informed by at the Vanderbilt cup race in San Fran-

The Car That Makes Both **Ends Meet**

The Saxon has removed the last objection anyone ever had to owning an automobile—the price reason.

For the first cost of the Sazon places it within the reach of everyone. Its price is \$395.

And the after cost of the Saxon keeps it within the means of everyone. Saxons average half a cent a mile in

And the Saxon stands up.
It endures the hardest kind of usage without flinching. Many thousands of Saxons now in use have proved the sterling goodness of Saxon construction.

The 1915 Saxon is a stylish; mappy car, with beautiful body of the genuine streamline type, wood or wire

They establish these essentials: The natural waist line is indicated.

Above the waist, at the front, the line is somewhat higher, giving the trim, well-groomed appearance.

The back and hips remain flat and well boned.

Above the waist, at the back, the corsets are so constructed as to care for the flesh across the shoulders.

City Opens Its Gates. OLLYWOOD, Cal., March 18.—It is all true what the Universal people have said about Universal City and then some, today, when amidet music, gun salutes, and cheering, the flag went up, the Universal banner swept the air and the gates went open, such a crowd poured through as will bear witness to that fact, and the crowd kept right on pouring and was still at it when I came away late this afternoon.

If I were good at figures I would tell you the exact quantity of the multitude, but, falling back on analogy, it was like the mob that rallied to a circus, a country fair, and a race jumbled into one, and i was a crowd that got its money's worth even if it had been obliged to pay for it.

It's a brave housekeeper willing to take the lid off her housekeeping and show the lid off her housekeeping and show the wondering world just how her system works. That is just what the Universal company did today in putting its motion picture municipality on the map. Not a cover was on in Universal city. All buildings with the multitude, many of whom had never before seen an actor except in celluloid. Bearish Sentiment in Corn.

Corn closed weak and lower, with the bearish sentiment more pronounced and universal than it has been in some time. There was the same lack of shipping demand, which left the market directly under the weight of the big stocks. The trade paid little attention to the fact that the farmer continues to-hold his corn. It took due note that the eastern distributor and exporter was not buying. The mild

trade paid liftic attention to the fact that the farmer continues to-hold his corn. It took due note that the eastern distributor and exporter was not buying. The mild weather over the entire corn belt, with evidences of clearing, counted against prices. The decrease of 547,000 bu last week in the visible supply brought the total down to 39,408,000 bu, as compared with a visible of 20,288,000 bu at this time last year.

Cash corn in the sample market was fully as weak as futures and lost 1/2 it. Primary market receipts were light at same point were 714,000 bu. Primary before a year ago were 848,000 bu. Bearish sentiment was so pronounced at one time that the selling was a little reckless

of Argyle street and Sheridan road, which transactions, figures in another noteworthy deal just closed by Mark Levy & Bro. The property, which has a frontage of 143 feet on Argyle street and 115 on Sheridan road, has been leased by Peter J. Schaefer to Charles H. Kusel and Phineas A. Harris, the builders, for a term of 198 years at an annual rent of \$5,400 for the first five years, \$5,700 for the next five years, \$6,000 for the succeed-ing twenty years, \$6,250 for the following twenty years, and \$6,500 for the remaining 148 years of the term.

The average annual rent is \$6,401.52, which, capitalized on a 5 per cent basis, gives a leasing value of over \$128.000, which is at the rate of \$1,113 a front foot for the Sheridan road frontage and \$800 for the Argyle street frontage, or \$10.90 a square foot, said to be a record figure for

Chicago City Railway Net Earnings Decline.

ARNINGS of the Chicago City Railway company for the fiscal year ended Jan. 31, 1915, were \$149,415 in excess of the 5 per cent dividend paid on the capital stock. The net earnings from operation were about \$500,000 smaller than the previous year. The company's statement, issued yesterday, was included in the gross earnings of the Chicago Railways company, so that the gross of the City Railway company was not set forth. The city's share of earnings for the year was \$736,223, which compares with \$592,047 for the previous year.

In his report to the shareholders President Leonard A. Busby says the decrease in the dividend rate paid from 10% per cent in the previous fiscal year to 5 per cent in the year under review was largely due to a decrease in gross receipts during the last half of the fiscal year.

According to Mr. Busby's report of the operations of the Chicago Surface lines the operating organization covering all the surface roads showed gross for the year of \$31,966,048; expenses, \$19,889,275; and net, \$12,076,773. Covering all the surface roads showed gross for the year of \$31,195,698, so that the gain in gross for the surface lines was for the year \$766,952. Suits, Costumes, Coats, Blouses, Skirts, Negligees Caps, Aprons, House Dresses for Women and Misses

Smart Wool Suits For Misses' Spring Wear \$25, \$30, \$35

Models Designed Especially for Young Women Up to 20 Years—Covering Every Requirement for Street, School and Dress Wear.

Three new Suit styles chosen from our wide assortments are illustrated.

Of Shepherd's Checked Wool With Silk Faille Vestee \$25.00

This is illustrated at the left—its simple coat dependent on its novelty of cut for smartness. It is lined with a charming block-print pussy willow silk, and is effective also in tan, navy, black and Belgian blue.

A Gabardine Suit

With Petel-Like Revers-\$30.00 These pretty "Petal-like" lines also appear on the sleeves and coat seams. The model is sketched at the center and may be had in navy, black, tan and mouse gray.

> A Box-Plaited Skirt Distinguishes the \$35.00 Suit

This model, pictured at the right, is made of a fine whipcord serge, in navy, black or deer color. Its conservatively short jacket is lined with white satin, collared with white pique and belted with white kid.

Many other styles from which to choose. Sixth Floor, Middle North Room.

Women's Wool Skirts Good Values at \$7.50

The separate Skirt is developed in such a variety of styles and fabrics that its place in the spring wardrobe becomes of special importance.

Here Are Two Wool Skirts With Attractive New Features

At the left is sketched a simple Skirt of good quality serge, its broad cir-cular belt laced through button-trimmed tabs at the back and developed into two buckle-trimmed straps at the front.

At the right is a smart Skirt of wool poplin, topped by a narrow belt and distinguished by large, but-ton-trimmed "satchel"

Fashion Favors These Women's Shantung Silk Dresses

\$15.75 and \$20 Coincident with the revival of cross-ribbed silks

comes high favor for Shantung. The two Frocks illustrated, made of this fabric, are expressive of the style charm found in even our most moderately priced models.

Metal-Thread Embroidered and Trimmed with Satin at \$15.75

This is illustrated at the left-a simple model, distinguished by a large, elaborately embroidered pocket, a girdle end, embroidered to harmonize, and large, acorn-like buttons.

A "Suspender" Frock With Chiffon Bodice, \$20 Sketched on the seated figure is a Frock whose skirt, belt, suspender straps and buttons are of Shantung. Its sheer bodice is delicately embroidered.
